

8-Bottle Wine Dispenser (Single Temperature) for self-serve use

The OTTO is an 8-bottle dispenser designed with Italian styling to enhance any setting. The advanced features, high quality finish and full functionality set the OTTO apart from similar wine systems on the market. As a single temperature model, the OTTO is typically used for a multi-dispenser application for either back-bar staffed or customer self-serve use. Owning a WineEmotion OTTO will enhance your wine sales and communicate to your customers the calibre of your wine program.

Key features:

30 Days Preservation

Precise Measure Control

Three Volume Measures

Wine Cards with Software

Single Temperature

Beautiful Bottle Display

Compact Sleek Design

2 Year Warranty

Otto features

Models Available (2 options)	8-bottle room temperature, single temperature – for 8 red wines 8-bottle refrigerated, single temperature – for 8 red or 8 white wines
Temperature Settings	Room temperature Refrigerated: from 7 to 18°C (from 45 to 65°F)
Usage	To be used by staff or for customer use with wine cards (software activated system). Can be configured for free use. Ideal for all applications
System Activation	For staff with special service card For customers with wine cards
Preservation	Up to 30-day wine preservation Food grade nitrogen or argon by external gas generator (optional) or cylinder (supplied by customer)
