

### 8-Bottle Wine Dispenser (Dual Temperature) for self-serve use

The QUATTRO+4 is an 8-bottle dispenser with unparalleled technology utilising two independent temperature controlled chambers. It is elegantly designed with Italian styling to enhance any setting, the classic lines and advanced features of the QUATTRO+4 set it apart from similar wine systems on the market. As a dual temperature model it can be used for either single or multi-dispenser applications whether back-bar, staffed or customer self-serve use. Owning a WineEmotion QUATTRO+4 will enhance your wine sales and communicate to your customers the calibre of your wine program.

#### Key features:

30 Days Preservation

Precise Measure Control

Three Volume Measures

Wine Cards with Software

Dual Temperature

Beautiful Bottle Display

Compact Sleek Design

2 Year Warranty

## Quattro+4 features

<b>Models Available (1 option)</b>	8-bottle refrigerated, dual temperature – for 4 whites & 4 red wines (or 8 white wines or 8 red wines)
<b>Temperature Settings</b>	Refrigerated: from 7 to 18°C (from 45 to 65°F)
<b>Usage</b>	To be used by staff or for customer use with wine cards (software activated system). Can be configured for free use. Ideal for all applications.
<b>System Activation</b>	For staff with special service card For customers with wine cards
<b>Preservation</b>	Up to 30-day wine preservation Food grade nitrogen or argon by external gas generator (optional) or cylinder (supplied by customer)
<b>Servings</b>	Three pour adjustable portion control
<b>Wine Card Activation</b>	Chip card (SMART card)
<b>Lighting</b>	Ambient long life LED white lighting, optional RGB colour LED available
<b>Bottle Lifting System</b>	Powered by pneumatic pistons which are assisted by mechanical springs
<b>ISOL-Plus Technology</b>	Patented unique design which prevents aromatic cross-contamination of wines. Independent valves ensure perfect isolation of each bottle within the dispenser
<b>Materials</b>	High quality stainless steel as standard
<b>Customisation</b>	A range of optional coloured finishes available to suit most interior decors. Special commissions also available upon request Screen printing for customising display and keypad area, can include customer logo and branding
<b>Positioning</b>	Freestanding or built-in
<b>Condensation Drainage</b>	External drain-line not required, dispenser has an internal condensate evaporator heater
<b>Cooling System</b>	Dispenser is chilled by air compressor, high quality componentry
<b>Compressor Placing</b>	Compressor is located at the back of the dispenser (not the side) making a compact footprint with 100% bottle display at the front
<b>International Conformity</b>	All products are certificated in conformity with International and European (CE) referenced regulations
<b>Warranty</b>	24 months manufacturer's parts warranty 12 months labour warranty, extendable to 24 months with technical support contract
